CONTACT US

JOUJOU POP is inspired by all things beautiful in Sussex and in particular Brighton. Achieving a Pop Art sensibility, the range is perfect for everyday wear and is designed for those who seek the unusual and eclectic and who adore unique pieces for a truly individual style and flair. Using an inlaid, engraved imagery technique on laser-cut mirrored acrylic, Mojiana Pop features necklaces, earrings, cufflinks and brooches in six vibrant colour combinations- all handmade in Moji's studio.

## DESIGNER & FOUNDER

Moji Salehi is the designer behind JOUJOU POP, a playful collection of acrylic jewellery with an abundance of personality. With a background in interior design, textile printing and ceramics, Moji created this fun and quirky collection as a direct expression of her passion for all things beautiful in Britain - and in particular, Sussex.

Moji says " To date, my design portfolio has highlighted my attraction to geometric line and form, but for this collection I turned my attention to re-interpreting familiar subjects found within my surroundings- all through an eclectic eye. Whether people walking their dogs along Brighton beach with its vibrant arcades, seaside stalls and fairground rides, or the diverse and magical landscape of the South Downs with rolling hills, sweeping rivers and pretty villages, my source of inspiration is endless."

Moji is also the designer and founder of [Mojiana](#); a lifestyle brand she launched in 2013, originally from a collection of hand printed home decor in 2008 and gradually expanded to a luxury leather jewellery line followed by a decorative lighting collection in 2018. With a curious approach to design and a passion for exploring the boundaries of materials and techniques, Moji aspires to create new exciting jewellery and home accessory collections in ceramic, polymer clay and brass in 2019/20.
